Leftovers

In the refrigerator
behind the milk
behind the bran muffin
I never ate
lies last weeks leftovers

Vaguely I remember
some type of potted roast
or was it tuna salad?
either or,
there it lies
in a battered pot
handle broken
lid half on - I wonder if it's still edible?

Better go hungry
one more night
Better to leave it
just the way it is
Crap behind Crap.

I'm tired of being
everybody's leftovers.
